Course Overview

Course Description:
The course is structured across three months, comprising 24 sessions, each lasting for 2 hours, totaling 48 hours of intensive learning. It offers a blend of theoretical knowledge and practical exposure, designed to provide an in-depth understanding of digital art in Procreate. Every module is carefully designed to systematically progress from beginner to advanced levels, ensuring a holistic learning journey.

Learning Objectives:
You will gain a strong foundation in digital art, learning to create visually stunning artwork with Procreate. The course is designed to equip you with the necessary skills to maneuver through Procreate efficiently and unleash your artistic potential. By the end of this course, you'll be proficient in various advanced techniques, including layering, text editing, and watercolor painting.

Prerequisites:
Basic knowledge of operating an iPad and a passion for art are the only prerequisites. No prior experience with Procreate is required. A willingness to learn, an open mind, and a creative spirit are all you need to embark on this exciting journey.

Certification of Attendance:
Upon successful completion of the course, a certificate of attendance will be provided. This certification not only validates your skills but also adds value to your professional profile. It signifies your commitment to personal growth and passion for digital artistry.

Embrace the opportunity to express your creativity in a whole new way. This course offers a transformative experience, empowering you to take the reins of your artistic journey. Join us, dive into the world of digital art, and make your mark in this fascinating field.

Don't miss out on this exciting opportunity!

Module 1

Introduction to Digital Art with Procreate

Delve into the world of digital art with our introductory module, focused on Procreate, a leading digital illustration software. Gain proficiency in the basic features and tools that the software offers, enhancing your creative prowess.

Topic 1: Introduction to Procreate

Dive deep into Procreate's functionalities, understanding its user interface, gesture control, and basic sketching skills. This foundational knowledge will empower you to use Procreate efficiently and effectively, unleashing your artistic potential.

Topic 2: Brush, Eraser, and Wipe Finger Basics

Understand the core of Procreate's painting engine: its brush, eraser, and wipe finger tools. Master these tools to create diverse and impactful artwork, adding depth to your digital art journey.

Topic 3: Importing and Customizing Brushes

Discover the art of personalizing Procreate through creating and importing custom brushes. This exploration allows you to personalize your work, providing unique elements to your digital art creations.

Learning digital art with Procreate is a valuable skill in the modern world, as it opens doors to numerous creative outlets. Our course provides a structured approach to understanding Procreate, thereby empowering you to express your creativity digitally. Unleash your artistic potential with us today!

Module 2

Advanced Drawing Techniques

Elevate your digital drawing skills with our module on Advanced Drawing Techniques. We delve into Procreate's advanced functionalities like Quick Shape, Drawing Aids, Layer Modes, Selection Tools, and Color Theory to redefine your artistic expression.

Topic 4: Advanced Drawing Techniques

Understand how to bring life to your digital creations with Procreate's advanced drawing techniques. Master Quick Shape for flawless forms, create dynamic perspectives with Drawing Aids, and manage complexity using Layers and Layer Modes. Your digital artwork will gain precision and versatility like never before.

Topic 5: Selection Tools and Transformation Techniques

Master the Selection and Transformation Tools in Procreate to control and refine your digital art. Learn how these versatile tools can assist you in the editing process, offering you the freedom to experiment and enhance your artwork to perfection.

Topic 6: Colors and Effects

Dive into the world of colors and effects to amplify the visual impact of your digital artwork. Grasp the intricacies of Color Theory, the harmonious interplay of colors, and the power of Layer Blend Modes to create compelling, natural effects in your art.

In the real world, mastering these advanced techniques can significantly improve your digital art skills, whether for professional work, personal projects, or even digital art tutoring. This module equips you with the knowledge and skills to produce stunning and refined digital artwork that can capture attention, evoke emotions, and communicate ideas effectively. Invest in your artistic growth today.

Module 3

Enhancing Your Digital Art

Unlock your digital art potential with Module 3, focusing on advanced techniques in Procreate for layering, text editing, and watercolor painting. This course is designed to enhance and refine your digital artwork, creating more captivating visuals.

Topic 7: Advanced Layer Techniques

Uncover the secrets of complex layering techniques like layer blend modes, layer masks, alpha lock, and clipping masks. Master these skills to add depth and complexity to your artwork, making your pieces visually dynamic and engaging.

Topic 8: Text Design and Editing

Improve your digital art presentation by incorporating aesthetically pleasing and well-integrated text. Learn to effectively manipulate text within your artwork, providing a cohesive visual experience that captivates viewers.

Topic 9: Watercolor Painting Techniques

Broaden your artistic range by learning to create realistic watercolor effects in Procreate. This technique offers versatility in style and enhances visual appeal, giving your artwork a distinctive edge.

In the real-world application, these skills can significantly elevate the quality of digital art. Not only can it enhance personal projects, but it can also boost your professional portfolio, increasing opportunities in the competitive digital art market. With this course, you're investing in your artistic future.

Module 4

Digital Art Composition and Project Creation

Our fourth module is designed to help students apply their digital art skills in creating compelling compositions and independent projects. The focus lies on composition, image manipulation, and executing advanced projects, all within the Procreate app.

Topic 10: Composition and Creation of a Painting

This topic introduces the principles of composition and their application in creating a digital painting. Students will learn to formulate visually pleasing artwork, conveying their ideas effectively and enhancing the overall aesthetic quality of their digital paintings.

Topic 11: Image Import and Modification

In this segment, learners will understand how to import and modify images in Procreate. This topic enriches the creative possibilities and versatility in students' digital art repertoire, further enabling them to bring diverse ideas to life.

Topic 12: Advanced Art Projects

This topic engages students in the creation of advanced art projects, offering a chance to apply, practice, and refine their acquired skills. It provides a platform for confidence-building and practical proficiency in Procreate.

Learning these concepts carries immense real-world benefits. By understanding composition, image manipulation, and project execution, learners can create stunning digital art, tell compelling visual stories, and potentially carve a niche for themselves in the thriving digital art industry. This course is your gateway to mastering the art of digital creativity in Procreate.

Module 5

Video and Animation Techniques

Harness the vibrancy of digital art with our comprehensive "Video and Animation Techniques" module. This course will equip you with the skills to create time-lapse videos, use 3D painting, and manage PDFs in Procreate effectively.

Topic 13: Creating Time-lapse Videos

Learn to chronicle your artistic journey with Speedraw and time-lapse videos. Capture your creativity dynamically and share your process with a wider audience online, enhancing your digital portfolio.

Topic 14: Animation Wizard and 3D Painting

Expand your digital art capabilities with animation and 3D painting techniques. Master the art of animating and importing PDF files in Procreate and breathe life into your 3D objects through painting.

Topic 15: Review and Revision of Video and Animation Techniques

Solidify your understanding of time-lapse video creation, animation, 3D painting, and PDF import techniques. Review, practice, and refine these techniques, leading to proficient application in your future digital art endeavors.

Mastering these techniques will elevate your digital artistry, offering a dynamic way to present your work and captivate viewers. From showcasing your process with time-lapse videos to engaging with immersive 3D painting, this module unlocks endless artistic potential.

Module 6

Mastering Procreate

Elevate your digital artistry to professional levels with our Module 6, "Mastering Procreate". This module focuses on advanced skills like perspective drawing, superior animation techniques, and creating a final project.

Topic 16: Perspective Drawing

This topic introduces you to perspective drawing, covering the basics to more complex aspects like 2-point and 3-point perspective. It's a key skill enhancing depth and realism in your digital artwork, paving your way to become a professional artist.
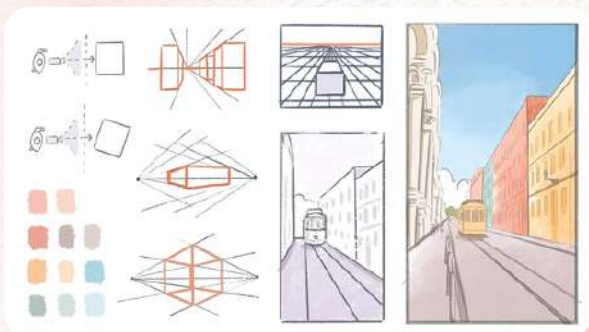

Topic 17: Advanced Animation Techniques

Jump into the exciting world of advanced animation techniques in Procreate. This topic guides you to create complex animations, including walk cycles, transformations, and the vital skill of exporting your animations. It's a step into professional digital art contexts.

Topic 18: Final Project

The third topic involves creating an all-inclusive digital artwork or animation project. It's an opportunity to apply everything you've learned, whilst honing your critique skills and receiving constructive feedback to continuously improve your artistic creations.

Mastering Procreate is a game-changer for your digital artwork. From understanding perspective drawing, executing complex animations, to completing your personal project, these skills can help set your work apart in the digital art world. Boost your career prospects, create outstanding work, and make your mark in professional artistry.

Dear Student,

Welcome to CreateBahrain Academy, a dynamic platform designed for those passionate about design, photography, filmography, animation, coding, and digital marketing. As an independent entity from the well-established TeachBahrain Academy, our mission is to empower curious minds to transform the world.

Inspired by the pioneering educational philosophies of Mr. Saad Akbar and Mr. Omair Imtiaz, we believe in nurturing individuality, fostering inventive spirits, and promoting independent thinking. The curriculum, further shaped by the expertise of Ms. Kanwal Imtiaz, a former Ikea Design Manager, ensures a focus on self-driven and experiential learning.

Our curriculum guarantees meaningful, hands-on learning experiences, guided by expert educators in a vibrant community. We're excited to offer you a customized learning path tailored to your interests and aspirations.

Join us for a tour or attend an upcoming admission event to experience our dynamic learning environment firsthand. Spread the word to others who share your passion for creativity and learning. Together, let's improve the world through the power of creative education.

Best wishes

Kanwal Saeed
